-

Academic Qualification

Bachelor of Computer Applications

Manorama College Gadag (2022 – 2025) |

CGPA: 7.88 /10

Projects

1. Spotify (Frontend Project). *Tech*

Stack: HTML, CSS.

- Built a Spotify-inspired frontend clone using HTML and CSS, recreating the core layout, navigation bar, and music player UI with a clean, modern design.
 - Implemented a responsive and visually consistent interface using CSS Flexbox/Grid, focusing on typography, spacing, and alignment to closely match the original Spotify web UI
- ### 2. Student Registration Form (Frontend Project). *Tech Stack: HTML, CSS, JavaScript.*
- Designed and developed a responsive Student Registration Form using HTML, CSS, and JavaScript with a clean two-section UI layout and structured form design.
 - Implemented JavaScript-based form validations (required fields, email, phone, zip code, terms & conditions) with real-time error handling, visual feedback, and controlled form submission to enhance user experience.
- ### 3. Doctors Appointment Booking. *Tech Stack: HTML, CSS, JavaScript, React.js*
- Developed a responsive Doctor Appointment Booking frontend using React with clean UI, speciality filters, and smooth appointment flow.

Tech Stack: HTML, CSS, JavaScript, React.js

- Developed a responsive Doctor Appointment Booking frontend using React with clean UI, speciality filters, and smooth appointment flow.

- Implemented reusable components and modern frontend practices to enhance user experience and maintainability.
-
